In addition to preserving the authenticity of real life, FIFA 22 introduces a range of unique features for specific game modes. For example, during FIFA World Cup matches, players will benefit from "Inverted Goal Scoring" where the player who controls the ball the longest is awarded a penalty while their opponent cannot. FIFA World Cup mode will also include teams that are historically referred to as "small nations." Additionally, supporters can lead their teams in "Club Quotes", with over 50 legendary heroes and villains in over 100 club-based stadium environments. "With the game's visual and gameplay enhancements, FIFA 22 continues to build on the best-selling football simulation franchise," said David Rutter, Executive Producer. "And with over 14 million players worldwide, who have been asking to play in the FIFA World Cup, we've got a special offer to celebrate all 16 teams, and get FIFA's most popular national teams into the virtual stands." Players will be able to compete in the "vast," "ever-changing" world of Fifa® on Xbox One and Xbox 360 via the Xbox Live online entertainment network. The FIFA World Cup Edition will be available in stores and online on May

Fifa 22 Features Key:

- **Equality.** Created for today, the game world looks and feels more real than ever. Players behave more naturally and react physically to collisions, the ball, and to each other, adapting their actions to match the speed, intensity, and dimensionality of competition.
- **Features you ask for.** Whether you want tackling to be more realistic, or you want the ball to behave like a sphere, we've heard your input loud and clear - and have responded.
- **New Teammate Modeling.** FIFA 17's comprehensive motion capture engine now provides players with unprecedented control over their teammates. Now you can see your teammates' biometrics and animations in 3D as they dodge the ball and choose when to jump in
- **Player Intelligence.** From powerful personalities like Lionel Messi, to a new breed of intelligent top players, this year's roster of in-game teammates gives you more ways to shine. And for the first time, other players will factor into your performances. How does Julio Cesar Navas rate against Messi? How do you feel about Brazil's Darjo Srna versus Real Madrid's Luka Modric? The answer is simple: great player rankings tell you more about your opponent.
- **Live the Dream.** With superior control of every aspect of the soccer pitch, delivering depth and spectacle never before seen from a sports game
- **New Commentary and the Official Broadcast.** FIFA's New Talent to add extra commentary from Rafael van der Vaart and a new official broadcast, including commentary by Paul Ince at selected matches
- **Online/Offline Multiplayer Options** - There are many more ways to play, including the all-new Be A Pro feature (with a coaching tutorial included to get you started), offline split-screen and online matchmaking
